What to fix first

[high] Add quantifiable achievements

- Include specific numbers and metrics to demonstrate impact
- Emphasize achievements over responsibilities

[high] Tailor the resume to specific job openings

- Research the company and role to understand their needs
- Use language from the job description in the resume

[medium] Improve formatting for better parsing

- Use clear and concise headings for sections
- Ensure consistent spacing and indentation

[medium] Emphasize transferable skills

- Highlight skills that are relevant across multiple roles
- Use language from the job descriptions to describe skills

[medium] Add specific examples of achievements

- Include concrete examples of projects and their outcomes
- Quantify the impact of achievements

[low] Maintain the current format and content

- Continue to use clear headings and concise descriptions
- Ensure consistent formatting throughout
