What to fix first

[high] Optimize skills section for keyword matching

Use more specific and relevant keywords in the skills section to improve matching

[high] Highlight leadership and initiative

Include examples of leadership roles or initiatives taken in previous positions

[medium] Add a professional summary

Include a brief overview of experience and skills at the top of the resume

[medium] Emphasize transferable skills

Highlight skills that are transferable across different roles and industries

[medium] Include more quantifiable results

Add specific numbers and metrics to demonstrate the impact of achievements in the experience section

[low] Maintain clear and concise formatting

Continue to use clear headings and bullet points to make the resume easy to read
